I'm good with you hosting and inviting the division if you like. Suggest keeping it focused on phthalates and risk assessment and mixtures. I used to work with Glenn Rice, and I know Justin and Earl, all top notch.

Morning all,

Tony has been working on connecting with our colleagues over in ORD about phthalates and specifically the mixture question that was posed by SACC. He has identified a few people and a time to have them talk with us. We just need a forum. The original plan was to have them talk at a branch meeting(s). It did come to our attention that this topic may be of broader interest to the division, or even office, via brownbag or Friday training. What do you think?

Collin

Historically, anyone who wants to host a brown bag and invite the division has given division leadership a curtesy heads-up. In some cases, division leadership has specifically asked me to facilitate a speaker from another part of the agency. These are not particularly formal and people take em or leave em.

That said, I am not sure what the preferences are for the new division leadership. Given that we have an official "training time" for Fridays, they may want to elevate these topics through the Staff Development team if they think they are valuable enough for everyone.

Ex. 5 Deliberative Process (DP)

These look exciting! Cant wait to hear more about them 😊

Good morning Collin,

I had a call with Xiah earlier this week and the topic of phthalates came up. I mentioned that I was reaching out to some colleagues in ORD to see about having someone present on mixtures risk assessment methodology, and Xiah thought there would be enough division wide interest in this topic that we should consider hosting this as division-wide brown bag presentation. Do you have any thoughts on this?

Right now, two sets of colleagues in ORD said they would be interested in speaking with us.

Ex. 6 Personal Privacy (PP)

Xiah – Do you think there would be enough division wide interest in both topics for both to be brown bags, or just #1? Also, correct me if I'm wrong, but in order to move forward with scheduling a brown bag presentation, Collin would just need to get Andy and/or Ryan's sign off?

Let me know if you want to talk more about this.

Thanks!
Tony
